Dormice are very shy animals, and not many people are lucky enough to see one. How about making your own salt dough dormouse so that you can show and tell your friends all about dormice like Ostin.

Byddwch angen:

250g blawd plaen

125g halen bwrdd

125ml dŵr

You will need:

250g plain flour

125g table salt

125ml water

1. Cymysgwch y blawd a'r halen gyda'i gilydd mewn bowlen fawr ac wedyn ychwanegu'r dŵr i wneud toes stiff. Tylinwch y toes am ychydig funudau.
2. Defnyddiwch y toes i wneud eich pathew - cofiwch fod gan bathewod lygaid du mawr a chynffonnau ffwr trwchus. Peidiwch anghofio trwyn gwinglyd a chlustiau bach! Gallech ddefnyddio olion fforc i greu côt ffwr eich pathew.
3. Gofynnwch i oedolyn eich helpu gyda'r cam nesaf. Sychwch eich model ar hambwrdd pobi wedi'i leinio yn y ffwrn (ar ei thymheredd isaf) am tua 3 awr, neu nes bydd yn hollol galed.
4. Pan fydd eich pathew toes halen wedi oeri, gallwch ei addurno gyda phaent. Ceisiwch gymysgu lliwiau paent i wneud lliw aur hyfryd ar gyfer ffwr eich pathew.

1. Mix together the flour and salt in a large bowl and then add the water to make a stiff dough. Knead the dough for a few minutes.
2. Use the dough to make your dormouse - remember, dormice have big black eyes and thick furry tails. Don't forget a twitchy nose and little ears! You could use a fork to score along your dormouse to create his furry coat.
3. Ask your grown up to help you with the next step. Dry out your model on a lined baking tray in the oven (on its lowest temperature) for around 3 hours, or until it is totally solid.
4. When your salt dough dormouse has cooled down, you can decorate it using paint. Try mixing paint colours to make a lovely golden colour for your dormouse's fur.
